Introduction

Are you ready to start making some money from casino gambling? I know it sounds impossible, but there are a number of informed gamblers who regularly make *\$500, \$1,000 even \$5,000 a day off the casinos.*

I want to share with you an astounding new way to make money. It's a money-making method that does not require a large bankroll, specialized training, or hidden gimmicks.

We have found through extensive research and testing a small number of gambling strategies that win consistently. Each system which is "certified" to perform consistently and reliably has passed **a number of rigorous tests -**

- **It passed the set of basic logic questions I apply to any system.**
- **It must be easy to learn and highly effective.**
- **It has to have a high winning rate.**
- **It must be playable using different bankroll requirements and not require much money to get started using it.**
- **It will have been tested for millions of synthetic craps rolls using computer software.**
- **It will have been thoroughly analyzed using statistical theory.**
- **And, it will have been played in actual casinos for hundreds of games for the results documented and available for your inspection.**

The key to winning at gambling is to only play when you can gain an advantage over the casinos. Now, after years of testing, I will share with you the best proven strategies, which consistently take money from the casinos!

There are many individuals and companies selling gambling systems. There are a number being offered on the Internet. We have seen just about every one of them. Some are fairly decent, most are just awful, and a good number are outright scams. These systems are priced anywhere from a few bucks to hundreds or even thousands of dollars. **We have found that the system costing \$500 may not be any better than the one costing \$50.**

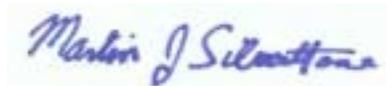

We have rigorously tested hundreds of gambling systems. The better ones were tested in both land based and Internet casinos. What we found will amaze you. **There are a handful of strategies, which actually give you an edge over the casinos. When you use one of these proven winning methods, you are favored to win and win consistently.**

Can you imagine walking into your favorite casino, going up to your favorite game and, in short time, walking away thousands richer? Using one of our carefully selected tested and proven strategies, you can do just that!

What follows is a series of presentations about the best winning gambling strategies. **Each strategy comes with a No-Risk 100% Money-Back Guarantee and may be ordered online.**

We invite you to put the **power of proven winning strategies** to work now! You should also visit our web site at: <http://www.casinogamblersbookcase.com>

Yours for beating the casinos,

Martin J. Silverthorne

"America's most respected source of gaming information."

Make \$10,000 by Next Tuesday!

I have discovered a way you can make incredible amounts of money off slot machines.

Can you imagine how much you would make if you knew exactly how to find and play only the slot machines most likely to pay off?

You'd make a fortune wouldn't you? The truth is there are a small number of us who regularly make \$300 to \$500 an hour just by knowing how to correctly "select" the best slots and "eliminate" playing on slots which are not likely to pay off

Once you know this unique system you can start winning huge amounts of money simply by limiting your play to "selected" slots.

When you use this precise copyrighted approach to beating slots, you won't be like any slot player you have ever seen. Instead of being a typical slot loser, you will turn slot play into a calculated plan for winning at slots! There is nothing else like it!

You will typically play for only a few minutes on one machine, lock up a win and then move on. After using this powerful strategy on just a few machines you will hit your daily target win and you can quit playing slots.

This special insider's information can literally make you rich.

The critical information on what it takes to consistently beat slot machines came to me from one of the players in a ring of professional slot players. The incredible story of Dr. J. and why he chose to betray the code of silence and talk to me is told at

<http://www.casinogamblersbookcase.com/SS/>

Pattern Selection Can Make You Rich!

I want to show you how you can make over \$800 an hour just by learning to select “patterns.”

I am not talking about dress-making or any other way you have probably ever thought about patterns.

I want to share with you an extraordinary way of making money off casinos just by recognizing common patterns that occur in the casino table games of craps, baccarat and roulette. And, I will even reveal how you can use this “pattern recognition” strategy to make a fortune at blackjack, if you dare! Once you learn how to recognize these simple patterns, you will have the key to winning huge amounts off the casinos. And there is not a thing the casino bosses can do to stop you!

Can you imagine having a strategy that unlocks the key to beating roulette?

A strategy that wins a very high number of games at craps?

A powerful method that wins very, very consistently at baccarat or mini-baccarat?

The Neural Strategy is just such a strategy. It even wins game after game at blackjack if you dare use it.

This is possibly the most effective winning system I have ever seen for beating casino table games. Even if you don't know beans about the games of craps, baccarat, roulette or blackjack, you owe it to yourself to try out what has been called **“the perfect winning strategy.”**

Ron is a great friend of mine. He is an airline pilot for American Airlines and always has interesting stories to tell about his travels. He is always up and funny and usually the life of every party. But the last time I saw Ron he was anything but happy. We were at one of these cocktail parties, which I usually try to avoid, and everyone was standing around giving their best fake smiles and pretending to be having a great time.

Ron was standing in a corner not talking to a soul. This is unusual for him as he is usually in the center of a group of laughing, genuinely interested people. But not this time. I walked over to him and asked him how he was doing. He told me not too well. He had just had eye surgery and had been grounded for three months. I suggested this would be a great time to relax and enjoy life, but he shook his head and said his wife had other plans.

Carolyn is a great person and a terrific wife but she has one glaring flaw. She can't stand for Ron to enjoy too much time off, and she comes up with elaborate projects which seem to go on and on. Ron told me her latest was creating an elaborate oriental garden in the backyard of their immaculate home. I asked him what was wrong with the xeroscaping they had so painstakingly installed last year and he just shook his head. Then he asked, "Martin, don't you need some help with one of your projects. If I can just come up with a valid excuse, I think I can talk Carolyn into at least postponing her latest project long enough for me to start flying again."

This was truly a godsend for me. I had been searching for someone with the time to help me complete the testing of a revolutionary new betting system based on recognizing "patterns" in casino games. **The technical people had done their part. We had logged millions of simulated decisions telling our hypotheses. There was no question that this system was killing the computer-simulated games. But I needed more proof. And I sensed an opportunity with Ron.**

I told Ron about the Neural Strategy project. I explained how our extensive testing showed a win rate of over 90%. I told him that this appeared to be the breakthrough system that would revolutionize winning gambling strategies, but I desperately needed help to complete the “real world” testing of this strategy.

Ron perked up immediately. We spent the next hour engrossed in this new project and were close to the last ones to leave the by now almost deserted room. Ron had readily agreed to help with the project, which would involve his devoting a considerable amount of time to testing this strategy in real casinos. He was actually grinning as he walked out, planning how he would break the bad news to Carolyn about his new commitment, which would preclude his involvement in turning his backyard into her latest attempt at recreating “the Garden of Eden” as he put it.

Ron and I kept in close touch over the next month and he put the Neural Strategy through every possible test.

He played roulette, craps and blackjack in the local casinos. It was Ron who first warned me about blackjack. He said the system was simply too good at winning, and he was recommending that we delete blackjack from the games recommended for play.

He said that he had been under close scrutiny when playing blackjack in three different casinos and that the pit bosses were making his life miserable. They had changed dealers on him several times. The dealers tried shuffling the cards more frequently. Last night when he was playing blackjack, another player had constantly talked to him. When Ron told me that she was young and beautiful besides being pesky, I couldn't help but laugh and ask him what the problem was.

He was sure that the casino had sent her over just to interrupt his game. When Ron shared with me his winnings, I started to think he might be right. Betting green (\$25) chips, Ron was making over \$1,000 an hour at blackjack. Now this might not bother a large Strip casino in Las Vegas, but this local casino had done everything they could to disrupt Ron's blackjack game, including, according to Ron, this latest gamut entailing using this beautiful female player to distract him.

If it was anyone but Ron telling me this, I would chalk it up to mild hysteria or dilutions of grandeur. But he is as solid a person as I know and I had to give him the benefit of the doubt. I suggested that he confine his play to craps, roulette and baccarat. Because baccarat is not available locally, Ron traveled to Las Vegas the next week.

After another two weeks of testing (without blackjack), we wrapped it up. Ron was just ecstatic over the results of the test. His play confirmed what we had seen with our computer simulations.

This "Neural Strategy" produced high consistent profits because of its unique ability to identify winning patterns and then exploit them!

Ron had averaged making over \$3,000 a day playing for just a few hours. His play dramatically confirmed the power of this unique strategy with its ability to find and exploit the hidden patterns in these casino games.

Next I had to try this myself. I flew to Las Vegas determined to give the strategy as tough a test as possible – playing against the American version of roulette with its zero and double zero and its house edge over 5%.

I did this for a reason. American style roulette gives the highest edge to the house (much higher than craps or baccarat for example), and I wanted to prove a point. If the Neural Strategy could consistently beat this tough game, I knew we had a winner!

I figured that if I could use this method of betting patterns to beat the American two-zero wheel, the other table games, with their lower house edges, would be easy to beat.

Want to hear how I did? Even playing against such a high vig game, on my first day, I won \$668 in less than four hours. Using only a \$300 bankroll and making \$5 bets, I was making \$143 an hour!

As I played, I continued to rack up large wins - \$778 at craps, \$592 at baccarat, another \$472 at roulette.

I even tried playing blackjack, and I believe Ron was right. It is just not worth the effort to play blackjack when you can win just as much at these other table games.

The problem with using this strategy at blackjack is that it works too well. The Neural Strategy's win rate is so high that the casino bosses tend to assume that you are card counting. Then they turn on the heat. If you want to use this system at blackjack you can, but please don't be surprised when you attract a lot of attention.

If you are like me, you will prefer to play at the game where the casino is less paranoid and quietly and efficiently remove winnings as quickly as possible. I call it the "no mess, no fuss method of winning."

After finishing an exhausting amount of testing, I can state without reservation that if you follow the methods revealed in this extraordinary manual, you will beat the casinos!

[[firstname]], the Neural Strategy is the perfect system to use to recognize and win by playing patterns. Once you learn how to do this, your winnings will simply sky rocket.

I am inviting you to join the small number of insiders who know this strategy. Once you do, you can start winning \$500, \$1,000, \$3,000 or even \$5,000 a day.

But there's even more. If you order right now, I will include as a special bonus your personal copy of what has been called "the gambler's bible." "How to Survive and Prosper as a Professional Gambler" will show you the tricks the pros use – how to get and use casino credit, how to get more casino comps than you can use, and even what you must know about paying taxes on gambling winnings! It is the perfect companion volume to The Neural Strategy, and it is yours absolutely free if you order now!

This is a special offer only available online. Just follow the link below:

<http://www.casinogamblersbookcase.com/NeuralStrategy/>

Please act now so that you can join our exclusive group of casino winners. This offer is 100% Risk-Free. If you don't win at least \$1,000 just by trying the strategy, return it for a prompt and courteous refund. But keep "How to Survive and Prosper as a Professional Gambler" as my gift to you.

Yours for winning thousands using the secret of "patterns"

"America's most respected source of gaming information."

P.S. This is a special limited one-time online offer. The Neural Strategy is a unique method of winning with a strictly controlled distribution. This offer will close when we receive 500 orders. Don't miss out. Please order now!

Are you ready to win \$1,163.30 a day?

Would you like an easy and relaxing way to make an additional \$5,000 to \$10,000 next week?

The Silverthorne System wins so consistently it has been called "**the relaxed system.**"

When you use it, you can win an easy \$149.15 an hour starting with \$1 bets! If you use \$5 as your base bet, you can make up to \$745.75 an hour!

A friend of mine, Joel K, uses this system regularly and averages \$1,163.30 a day in winnings, playing for just a few hours a day.

Isn't it time you changed your life and learned a 100% guaranteed strategy that can offer you the freedom that no job or business ever can?

How would you like to be able to walk up to any craps table or sign on to an Internet casino and make a quick \$500 in less than thirty minutes? If this appeals to you then you must take advantage of this special restricted offer. When you order this information-filled manual, you will have what may be the most powerful winning system ever created. And, you are guaranteed to win at least \$1,000 just for trying it!

If you are willing to learn a few simple rules and are willing to set aside \$300 for casino play, then you can create a guaranteed income of at least \$1,000 a day. And, if you want to make even more, this carefully constructed strategy will show you exactly what to do.

Joel K. is an accountant by profession. He has told me more than once that most of the time, accounting is about as exciting as going to the dentist.

However, Joel and I share a secret. We both use the Silverthorne System to consistently beat the craps tables. I recently asked Joel how he was doing with the system and here's what he said.

"Martin, I had not played the system for a couple of months because of my heavy work load. I completed a big job and found that I could spare a couple of hours a day. I visited the new Sandia Casino just north of Albuquerque. They have two craps tables going all of the time and while it is not Vegas, it is only fifteen minutes from my office - a great convenience."

"Because I felt rusty, I decided to start all over risking only \$300 and then build up from there. My first session was on a Monday afternoon and I played very poorly. After about an hour and a half I left with just \$357 in winnings."

"The next morning, I felt totally refreshed and ready for my next session. I hit the same casino again. This session was much better. I stayed until 1:30 in the afternoon and walked out a cool \$872 ahead! This was more like it!"

"I played one more day this week, this time switching to the Santa Ana Casino a few miles north. **This session took less than three hours for a net win of \$1,047.00.** I took off for a few days and didn't play again until the following Monday. I visited Sandia again for a \$1,476 win on Monday, followed by a return trip netting me \$985 on Tuesday. **This brought my earnings for five days up to \$4,737 or \$947.40 a day!** While this was great, I knew I could do even better. I decided to increase the size of my buy-in for the next week, using the system's patented 'step-up' approach."

"I was well rewarded. In the next five sessions of play I cleared a cool \$10,844, which works out to exactly \$2,168.80 a day! Just to prove to myself that this wasn't a fluke (OK, and because I needed the money too), I decided to add a long weekend to the week just to top off the winnings."

"I was well rewarded. In two days of five-hour sessions I pulled down another \$6,487 in net winnings and took a break."

I asked Joel if he was still satisfied that The "Silverthorne System" is the best money-making system he has ever seen.

"Marty, you have got to be kidding. I pulled in a little over \$22,000 in less than forty hours at the tables. I sure don't make \$500 or \$600 a hour practicing accounting, and I don't have nearly as much fun."

"Besides the money, which is absolutely great, I guess the thing I enjoy the most is always being in control and being able to quit when I am ahead. I have gotten to know several of these dealers and they have told me that no one else wins like I do. I guess they haven't met you!"

"This is still the best, most reliable and most relaxing way ever discovered for making money. I salute you for your contribution."

This system is not new. It is a powerful system I developed over ten years ago after years of trying to find a safe way to beat the casinos. It took over two and a half years to perfect the system, playing hundreds of sessions against tens of thousands of dice rolls in casinos.

Once I knew that the system was a consistent winner, I revealed it to a relative handful of players. You heard what Joel, a member of the original group, said about this system.

After releasing this information ten years ago, the strategy was sealed to protect the investments of the original group of players.

Now, ten years have passed. I kept my promise to keep the strategy secret for ten years. Gambling has expanded at a very high rate since then. There are now thousands more craps tables in land-based casinos. The Internet has created thousands more of virtual tables. With the explosive growth in gaming, I know that it is now safe to release this system to a limited number of additional players.

Let me tell you more about this remarkable strategy.

You don't have to know how to play craps to use it. Anyone can learn how to win in just a few hours of practice.

You don't have to find hot or cold table to win. It works everywhere.

You don't have to stand around waiting for the right spot to jump in. You will calmly walk up to a table or sign on to an Internet casino and put the system to work immediately.

The best part is you won't have to worry about losses. Instead of fearing a loss you will focus on your daily profit goal. When you first start out, you will probably want to use \$1,000 a day as your goal.

As your winnings build, you can increase your daily target wins. You can go from \$1,000 to \$2,000 a day, then move up to \$3,000 a day. I know several players who regularly win \$5,000 a day using the same strategy I am going to send you!

I know that the Silverthorne System can change your life. Anyone who uses this strategy can become financially independent. If you want to make more money you can either play longer or use the unique "step-up plan" to increase the amount of your hourly wins.

Why don't you give yourself the ultimate reward? If you want to make a lot of money with this proven strategy, all you have to do is try.

The manual I have reserved for you reveals -

- ▶ **The special bets you will make to cut the house edge to a fraction of what most players face.**
- ▶ **The unique betting strategy you will use to gain a real edge over the casinos.**
- ▶ **The precise method of "flowing" with the craps table. This is the special key that will unlock huge profits for you.**
- ▶ **How to set and reach your daily profit goals- consistently and reliably.**
- ▶ **Why a loss is merely a temporary bump on your road to financial success and why you won't have to worry about losing.**
- ▶ **How this system will overcome the house edge in any craps game and put thousands in your pocket!**

You have been especially selected to receive a copy of this manual at the special price of only \$44.97. I will even include as a free gift to you an extraordinary bonus manual, valued at \$39.95 "Ten Steps to Beating the Craps Game." But that's not all. If you order right now I will also send you \$50.00 of Free Coupons just for trying The Silverthorne System.

To learn more about how The Silverthorne System can change your life, just follow the link below:

<http://www.casinogamblersbookcase.com/SilverthorneSystem/>

Please act now. I am only going to release a few hundred more manuals. Then the system will be locked up again. If you don't get your copy now, you may never learn this remarkable way of winning the relaxed way.

This offer is 100% RISK FREE. I invite you to try it out at my risk. If you don't win at least \$1,000 or you are unhappy for any reason, I want you to return it for a full refund. But please keep the bonus manual and the \$50.00 of coupons as my gifts to you.

Yours for winning \$1,000 every day you choose,

Martin J. Silverthorne

Silverthorne Publications Inc.

You too can win \$2,492 a day playing slot machines!

Do you know how to use the unique payback selection method to consistently beat slot machines?

Once you learn this amazing way of playing slots machines, you can make hundreds of dollars an hour!

On my last trip to Las Vegas, I made \$2,492 in just a few hours. Now I am going to show you exactly how you can use this extraordinary proven way to make \$500 an hour or more every time you play slot machines!

This method is so easy to use that it has been called "really fun." A friend of mine, Jerry P. said:

"The Advantage Slots method is like nothing I have ever seen. My winnings are super-charged. I can count on winning a couple of thousand dollars every time I decide to play slots for a few hours. This is the most wonderful thing that has ever happened to me!"

Are you ready to learn this simple proven strategy to start making as much as \$500 an hour playing slot machines?

By special arrangement, I am inviting you to join our select group of insiders who are beating slot machines all over the country!

Once you learn the hidden secret for beating slots, you will have a new proven lifetime source of earnings that no one can take away from you!

In this time of troubles and fears, knowing that you have this secret weapon will give you the confidence to face life enthusiastically and with a great sense of calm.

I am so confident that it will work for you that I guarantee you will make at least \$1,000 just for trying it!

Advantage Slots is a powerful new breakthrough strategy that is only being released on a highly controlled and restricted basis. You have been selected to become one of the few persons entrusted with this proven strategy for beating slot machines.

Let me tell you a little more about this proven winning strategy.

- **It is strictly a system for modern computer chip controlled slots. These are the kinds of slots you will find in your nearest casino.**
- **It doesn't rely on finding hot or cold slots, the temperature of coins played, pulling the lever a certain way, or any of the other nonsense which has been written about slot machines.**
- **When you use it, you won't have to stand around watching others play before you select a machine.**
- **It has nothing to do with finding a machine's rhythm, playing at a certain speed or playing at a certain time of day.**

Advantage Slots doesn't rely on any of the weird and unreliable nonsense that has been written about slot machines over the years.

This Advantage Slots Strategy is a tested and proven no-nonsense winning method you can use to regularly and consistently win at slots!

Make no mistake. Advantage Slots is a powerful new way of playing and winning at slots. It has been tested and re-tested for thousands of slot plays and it continues to produce consistent winnings.

One of the persons who tested this strategy is Mac, an old friend of mine. He is a retired high school science teacher with a mind that is razor sharp.

I asked Mac to help me validate the results for Advantage Slots by playing and testing the strategy.

Mac played very cautiously the first week and made over \$900. He decided to play a few more hours the next week. His winnings jumped to over \$4,000 for just a few hours of play.

Playing a day or two days a week, Mac racked up winnings of over \$7,000 in four weeks. Mac told me he was ready "to play a couple more days a week as I sure can't complain about the wages."

Anyone who uses this strategy can become financially independent. If you want to make more money, you just have to play more hours. [All you have to do is try.](#)

I know that Advantage Slots can change your life. You owe it to yourself to give it a try. As part of this exclusive offer to you, I will even include Five Big Bonus Strategies. You will receive the hottest winning casino systems for video poker, roulette, craps, blackjack and even a bonus slots system you can use to play for million dollar jackpots!

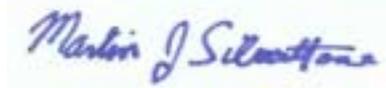

There is one catch. You must act now. This offer is only being made available to you and a small select group of hand-picked clients of Silverthorne Publications.

To learn more about how Advantage Slots will change your life, just follow the link below:

<http://www.casinogamblersbookcase.com/AdvantageSlots/>

Please act now. I don't want you to miss out on this extraordinary opportunity to join my inner circle of winners. This offer is 100% RISK FREE. Just try out the strategy. If you don't win at least \$1,000, just return it for a full refund. But keep the five big bonus strategies as my gift to you.

Yours for winning \$2,492 a day!

Martin

"America's most respected source of gaming information."

P.S. This manual has everything you need to know to win \$500 or more an hour. It has been called "the most amazing winning formula every created!" **I know it will work for you just like it has for me and my closest associates. Please follow the link below before this offer closes:**

<http://www.casinogamblersbookcase.com/AdvantageSlots/>

\$300 an hour is yours! Here's how ...

I am going to show you how to make an extra \$100,000 a year without going into business, hiring any people, getting involved in mail order, MLM, chain letters, selling long distance telephone service, stuffing envelopes or any of the other flaky, often disgusting, scams that are being offered as opportunities.

If you can learn just a few rules and are willing to risk as little as twenty bucks to start, you can clear an extra \$100,000 a year by playing video poker.

The casinos have finally stepped over the line in their arrogance. They are offering a game that is totally beatable; yet, they don't think anyone will be smart enough to learn how to do it!

You are going to learn how to put the casinos in their places. I am going to send you a 100% guaranteed way to start winning thousands of dollars as early as next week playing video poker.

If you don't want to travel to a casino, you can use this valuable information to beat the online casinos and win \$100,000 or more a year without even leaving home!

I have learned to beat the video poker machines found in almost every casino. Even though it took over a year of complex analysis and involved hundreds of hours of running complicated computer programs, the results are amazingly simple and easy to use.

Unlike most casino games, video poker machines literally advertise when they can be beaten. The paybacks for every poker hand are shown right on the front of each machine. **Once you know how to use this information, you will have a powerful weapon you can use to beat the casinos. I will teach you exactly what to look for, and I will give**

you a proven strategy you can use to win so consistently that losses will become a thing of the past!

When you have this information, it is absolutely amazing what you can do. Would you like to win from \$100 to over \$300 an hour? This is a piece of cake with my Power Video Poker Strategy.

Would you like to have a powerful, reliable second source of income? Power Video Poker will help you achieve this and more.

You can use this strategy to go for jackpots of \$10,000 to \$25,000! The key to winning consistently is to gain a real advantage over the casinos. This is exactly what the Power Video Poker Strategy does.

Because you will have an advantage over the casino, every time you play video poker using this powerful strategy you are favored to win. It doesn't matter whether you play two hours a month or five hours a day. You will always be favored to win, and the longer you play, the more you will win!

Sally G. is probably the least likely person you would ever pick to be a gambler. She is divorced, has two grown kids, one grandchild and loves to play slots. However, like most slots players, she consistently loses.

I talked to Sally last month at a party hosted by a group of realtors. Neither Sally nor I are realtors, but we happened to share some acquaintances who are, and we ended up sort of pushed together at the party since neither one of us was particularly interested in hearing the sales pitch.

Sally told me that she and a girlfriend had played slots the previous week. Sally said she only lost about \$50 and told me the story of her companion, Merriam. Merriam had just taken out her \$300 Christmas fund. She decided to try to double it and managed to make

over \$450 in an hour. Sally tried to get Merriam to quit, but she wouldn't. Sadly in less than an hour Merriam lost all of her winnings and lost her Christmas fund money as well.

Sally told me that Merriam was totally depressed and that both of them were really tired of losing.

I asked her if she had ever played video poker. She told me she didn't understand those machines. I asked her if she would like to learn a way to play and beat the machines. She rolled her eyes as if indicating that this wasn't very likely and told me she would think about it.

Two days later Sally called me and asked if she and Merriam could both learn to play video poker. She told me that they were tired of being losers and had decided that it was time to try something different. I told her that I could show her and Merriam how to win at video poker, but there was a catch. I had just completed putting together the draft of a manual on how to beat video poker. I thought it was clearly written and easy to use and understand, but I wanted to make sure that almost anyone who wanted to learn the system could do so simply by reading the manual, learning a few simple rules and then beating the video poker machines.

The catch was, I told Sally, I wanted her and Merriam to read the manual, and then let me know if they not only understood the strategy, but could actually win with it.

Since the manual was not yet printed, I ran off a couple of copies of the manuscript at our local Kinko's and gave them to Sally. She promised to give a copy to Merriam and get back to me.

A week went by before I heard from Sally. She called my office and left a message that she and Merriam were "going that night." I took that to mean that they were going to visit a local casino and try out the strategy.

About 3:00 PM the next afternoon Sally called me. She told me that she and Merriam had both played video poker the night before. Sally said they were both nervous and spent over thirty minutes just looking at different machines. She said that the information on the front of the machine was just like the manual said it would be.

They decided to play together on their first video poker session and they each "invested" ten bucks in the venture. With a total of \$20 they started to play a jacks or better quarter machine. Here's what Sally told me.

"We started playing just like your book says, varying the number of coins dependent on the payoffs we were receiving. We played our \$20 through one time and ended up with \$24.50. We tried it a second time, making the adjustments you told us to make. In about five minutes we hit a full house and two pairs. Even though I don't know much about poker I knew exactly how to make these hands. Finally, after about an hour of play, we stopped. Merriam and I were so excited our hands were shaking. **We had made over \$200!"**

"We would have made more, as we were up over \$300 at one time. However, we ignored your stop loss rule and didn't quit soon enough. But we are both very enthusiastic and excited. For once, we feel like we are in control instead of just mindlessly hoping for the best."

I asked her if she would play a few more times and take along a small voice recorder and record all of their thoughts and even questions as they played. Sally agreed.

I didn't hear from her for almost two weeks. I wondered if she had given up on the project. Finally, on a Friday afternoon, just as I was getting ready for a long weekend, she called. Now she was really excited.

"Merriam and I are enjoying playing together so much that we decided to make a little partnership. We pooled our money and decided to split winnings. Would you like to know how much we made last week?"

She sounded like a school child dying to tell her dad about winning the spelling bee.

"How did you do," I responded.

"We hit two royal flushes this week. **This put us up over \$2,700 for the week!** Martin, this is just great. Merriam was so happy after the second royal flush, that she cried. We are both just thrilled. Thank you."

While I was delighted that she had done so well, I really wasn't surprised. I asked her for a little more work. I wanted her to listen to her tapes and write down every question, comment or thought she had about the Power Video Poker Strategy. I told her that I had decided to release this strategy to a few more people and that her ideas could help other people just like her to become winners.

I had a feeling that Sally would be a big help and she was. She turned in over ten pages of notes about her thoughts and feelings about using the Power Video Poker Strategy.

The insights shared by Sally were invaluable. We revised our manual, adding additional explanations here, with more illustrations there, and now we know that we have the most complete and easiest to understand strategy of how to beat video poker ever written!

When you order this information, you will know exactly which machines to play and which to avoid.

You will learn the exact system Sally and Merriam used to win over \$2,700 in a week!

You will learn specific, proven money management strategies to lock up winnings, prevent losses and walk out a winner nearly every time!

You will even receive complete step-by-step instructions you can use to get started immediately winning \$100 to \$300 an hour or even more!

Even if you have seen another book on video poker, it can't compare with the information revealed in "Power Video Poker." This book is so complete that one user called it "a fantastic money maker."

Charles R. of Whiting, New Jersey said, "I have been using your betting strategy for video poker and have been more successful than I ever dreamed possible. I have made thousands in the past two months. Thank you, thank you, thank you!"

There is no question that Power Video Poker can change your life. You have been especially selected to receive your personal copy of this manual at a special price of only \$39.97! However, this offer is limited and you must act quickly.

To learn how Power Video Poker can change your life, just follow the link below:

<http://www.casinogamblersbookcase.com/PowVP/>

Please act now. I don't want you to miss out on this extraordinary chance to join our small group of consistent winners. This offer is backed by a no-nonsense 100% guarantee. **You can try out this strategy for a Free Trial. If you don't win at least \$1,000, just return it for a full refund.**

Yours for winning over \$100,000 a year,

Martin J. Silverthorne

www.casinogamblerbookcase.com

"America's most respected source of gaming information."

P.S. I sincerely believe that this information may be just what you have been looking for. You can use this strategy to win \$100 to \$300 an hour at video poker either in land-based or in Internet casinos. "Power Video Poker" is totally guaranteed to perform. Please respond as soon as possible so that I can rush this valuable manual to you. **This may be the most important investment you make this year!**

Can you use an extra \$300 an hour?

Are you ready to join a select group of insiders who are cleaning up playing slot machines?

The casinos sure don't want anyone else to know about the "flaw" in the payback of many slot machines. Slot machines were considered unbeatable until this incredible breakthrough discovery. Using the special methods that I will reveal to you, a small group of insiders have been consistently beating the slots and winning \$300 an hour or more!

Now, by special arrangements, you are invited to join this group of insiders who are terrorizing slots all over the country!

Once you have this exclusive copyrighted information, there will be no limit to the amount of money you can make off slot machines. If you want to make \$100 an hour, you can. Many players regularly make \$300 an hour or more, just by following a few simple steps. How much you will make is limited only by how much effort you put into the applying this strategy.

One thing is for certain. Using the knowledge of this flaw in many slot machines' paybacks can be the key to a new life for you!

- **Anna W. of Mesa, Arizona, hit \$2,293,612 at the MGM Grand in Las Vegas playing on the \$1 Lion's Share slot machine.**
- **Robert B. of North Cape May, New Jersey, only plunked \$7.50 in a Fabulous 50's slot at Trump Marina before winning a \$6,716,646 jackpot.**
- **George W. of Seattle, Washington, turned a \$12 slot investment into \$3,338,100 with a Megabucks jackpot playing at the Flamingo Casino in New Orleans.**

I could go on and on.

- **Patrice K. from Alabama won \$1,877,286 at Harrah's in Tunica, Mississippi.**
- **Jill W. won \$570,000 playing a Quartermania machine in Reno, Nevada.**

Would you like to join our list of insiders who regularly beat the slots? To find out exactly how you can acquire this restricted information, just follow the link below:

<http://www.casinogamblersbookcase.com/powerslots/>

Let me tell you about Debbie H. She works as an assistant editor for a friend of mine. Debbie seems to have everything going for her. She is smart, attractive, enjoys her profession, and has a beautiful three-year old daughter. However, Debbie has a dark side she has been seeking to control. Here's what she told me.

"Martin, I have been a slot player for several years. Used to be I would go to Las Vegas two or three times a year and play for a couple of days each time. I would have a ball."

"However, as you know, Indian gaming came to our area several years ago. Now the slots are just too easy to get to. I have been playing almost every weekend and the past month, I even began playing during the week. I feel like I am starting to neglect Nicole (her daughter) and I am losing money I can't afford to lose. **I don't want to quit playing; I just want to find a way to turn this into a profitable hobby. Can you help me?"**

Debbie and I had this conversation over six months ago. It happened at the same time that I was seeking some help in testing some changes in the Power Slots formula.

Most researchers strictly use computers or even paper and pencil to test gambling strategies. I guess I am somewhat of a throwback, as I don't believe in any system until I have seen it work in real casinos. Debbie had caught me at a time when I needed some help in validating certain aspects of the Power Slots Strategy.

I explained to her that we could use her slot playing as a way to test and possibly improve a carefully researched strategy used to win consistent large amounts off slot machines.

Debbie was very eager to work with us. "This sounds great. Maybe I can turn my expensive 'hobby' into something useful that actually makes money."

Debbie followed our specific instructions. She had no trouble finding slots ready to pay off using our special methods. Her first night out, she cleared almost \$400.

On her second casino excursion, she made \$478. By her third trip, she told me she had just about perfected her new playing style. She was getting used to the pattern of playing for a short time on a slot, locking up her winnings, then pulling off to find another machine.

"I am actually spending less time playing slots, but my time is so much more productive. I just love it. I can't help but look at all of the people who just stand there like zombies pulling levers, when the key to true riches is right under their noses."

"Let me tell you about my last casino visit. I decided to try a different casino. My friend Amy went along. I spent about ten minutes scouting out the likely machines. Then I started applying the special rules to zero-in on the slots I would play. Within fifteen minutes, I was on a great paying three-reel quarter machine. I ran my credits up to over 2,000 and then cashed out on this machine."

"I next played on a dollar machine. I hit a \$500 jackpot within five minutes and decided to take a break. I was up almost \$1,000 in less than an hour."

"Amy had been playing like most people without any real plan, just hoping to be lucky. She was down over \$40. I offered her a meal in the coffee shop on me, of course."

"Martin, I can't believe how lucky I am to have this 'Power Slots' strategy. I am so glad you picked me to help you. This knowledge has changed my life."

Are you ready to make a major change in your life? Are you ready to learn exactly how to beat slot machines consistently? I am inviting you to join my small circle of friends who are winnings millions off slot machines.

There is absolutely no risk for you to check this out. Under my Iron Clad Guarantee you can order this manual even if you are just curious. Return it if you don't win at least \$1,000!

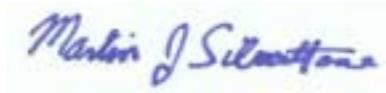

There's even more. If you order right now, I will send you a free bonus manual that will show you how to beat blackjack cold - without learning to count cards or memorize complicated charts. The system has been called the "best blackjack system for the weekend player," and it is yours to keep when you order Power Slots.

This is a special restricted offer. You have been hand picked to receive it. However, you must order quickly. Just follow the link below for complete information.

<http://www.casinogamblersbookcase.com/powerslots/>

I look forward to adding your name to my list of consistent slot winners.

Warmest regards,

Martin J. Silverthorne

Silverthorne Publications Inc.

www.CasinoGamblersBookcase.com

"America's most respected source of gaming information."

P.S. This strategy will give you a powerful, proven way to win at slots. Everything you need to know is revealed in startling detail in the manual. I urge you to "lock up" this chance for a new lifestyle and order now before this offer closes. Remember that I guarantee your success!

Here's how you will make \$500 an hour by next week!

I am going to show you an extraordinary, proven way to make \$500 an hour that is easy to learn and even fun! And, I will guarantee that you will make at least \$1,000 just for trying it!

Casino bosses love the game of craps. Since it is a game of chance, they figure that they will always have an edge over the players. That is why they still can't believe that a handful of my specially trained players are consistently beating this game!

What's more, by special arrangement I am inviting you to join our select group of insiders who have learned how to demolish the craps game!

If you are ready to learn a simple, verified way of making \$500 or more an hour just by learning the “right moves,” then you will love this strategy. **Once you put this special knowledge to work, you will hold the key to a lifetime earnings stream that is much more reliable than you might guess.**

If you haven't learned to play craps and beat the game, you owe it to yourself to try out the perfected **“Advantage Craps Strategy.”**

You will be amazed at what awaits you.

Besides the excitement of beating the game, you will love the fact that the bosses can't do a thing to stop you from winning large amounts again and again. As long as casinos offer the craps game, the few persons who know this killer strategy will have a way of winning consistently and reliably!

Let me tell you about some of the players who use the Advantage Craps strategy to make large sums of money.

Sam P. is an insurance agent. Unfortunately, he was in a bad car accident several months ago. He is now out of the hospital and "quietly going nuts recuperating at home" as he puts it.

I first heard from Sam over two months ago when he acquired a copy of the Advantage Craps Strategy. Sam wrote me that he didn't expect it to work, but he needed something to do and he wanted to try Internet gambling. He didn't expect to make much but he was tired of spending hours at home and since he was a "decent gambler" he wanted to try beating the Internet casinos.

I heard from Sam a couple of weeks ago. Here's what he said -

"I didn't expect much before I ordered your manual. I was surprised and delighted when I received a complete strategy all the way down to the individual bets I needed to make. However, as I always say, money talks and unless this strategy made me money, it still wasn't worth a nickel to me."

" Using your suggestions, I started playing craps on the Internet. Now I have played over 25 sessions, with 22 clear wins, 2 losses and one break even session. My results are just outstanding. On an hourly basis, I am making between \$200 and \$300 an hour. Using your guidelines, I will be increasing the size of my buy-ins so that I can rapidly move up to making \$500 or more an hour."

"What can I say? This is the real thing. There is no other strategy like it. Thanks for your help."

If you haven't played craps before, you may be thinking that the game is too complicated. Please don't be concerned. The manual I have put together will guide you every step of the way to becoming a consistent winner. There is no experience requirement for the position of "winning master craps player."

Let me share another success story. Angela is probably the ultimate skeptic. She majored in math in college and doesn't believe that it is possible to overcome what she calls a negative expectation game. I explained to her about the special "dynamic method" that the Advantage Craps strategy uses to gain a mathematical edge over the house in craps, but she still was doubtful.

I finally talked Angela into at least giving the strategy a limited trial. There are several Native American casinos within a short drive of her home and she agreed to at least try the strategy.

Angela is about as sharp as they come. She works as an assistant controller, which she reminded me, "may sound like a very important job, but it doesn't pay worth a flip."

Angela has been on what she calls a tear at the local casinos. Here's what she told me yesterday.

"Martin, you are a true genius. I am literally creaming the crap tables. What makes it really funny is that nearly everyone else at the table is a man and they can't believe that a young woman really understands the game. **I am picking up over \$330 an hour right now, and I plan on moving up quickly as my bankroll grows.**"

"What can I say. I am sorry I doubted you. You really have developed a strategy that gains a huge edge over the crap game and I plan on killing the casinos with it. I am also getting more comps than I know what to do with."

"This is much more fun than accounting and the pay is at least fifty times better. I guess you might say I have become a true believer."

How about you? Are you ready to start realizing your dream?

The Advantage Craps strategy is perfected. It has passed all of the tests. It is a completely developed and proven strategy which as Angela says, "gains a huge edge over the crap game."

It works in any craps game. It doesn't matter where you use the strategy. It works against quarter craps tables. It is very effective against high limit games. And, it is a proven money-maker against the online casinos! Sam is doing very well playing from his bed!

Wouldn't you like to join my inner circle of winners?

We have created a manual filled with the information you can use to become a consistent winner and win \$500 an hour or more at craps.

But there's even more. If you order by October 31, 2001, you will receive Two Big Bonus Strategies.

- **Strategy #1 is a killer at the blackjack table. It will put even more money in your pocket.**
- **Strategy #2 will put the odds in your favor against slot machines. Winnings of several hundred dollars an hour are common using this exclusive method.**

However, there is a catch. This offer is only available online at:

<http://www.casinogamblersbookcase.com/AdvantageCraps/>

There is no reason that you can't make \$200, \$300, even \$500 an hour. However, you must at least try. I am inviting you to join my exclusive group of craps winners. This offer is 100% Risk-Free. If you don't win at least \$1,000, please return the manual to me for a prompt and courteous refund. But keep the big bonus strategies as my gift to you.

Yours for beating the casinos,

Martin J. Silverthorne
Silverthorne Publications, Inc
www.CasinoGamblersBookcase.com

“America’s most respected source of gaming information.”

P.S. Here’s your chance to learn a lifetime method of making extra money. I really want you to experience the thrill of winning \$500 or more an hour. But please hurry. This is a special online offer and may be withdrawn at any time. Don’t miss out. Please order now.

Here's the extra \$5,000 you need right now!

How would like a simple proven way to make \$5,000 more this month? Are you ready to learn how a handful of knowledgeable players make millions by playing blackjack?

Once you learn this highly effective proven way of gaining an advantage at blackjack, you can easily win \$200 to \$500 an hour playing blackjack!

Can you imagine what this knowledge will do for your life? If you would like to make another \$2,000, \$5,000 or even as much as \$15,000 a month, this is your key to doing it!

I want to show you a powerful new way you can use to win consistently at blackjack. I will reveal the exact method that my inner circle of associates and I use to make huge amounts off of the blackjack game.

The amazing thing about this method is that it is not at all like what you have been led to believe. The myth of the invincible card counter is just that – a myth! Card counting has been around almost 40 years, yet during that time casinos have continued to add more and more blackjack tables. Most casinos figure their “hold” or win rate for blackjack to be between 16% to 20% of the money players use for blackjack. Do you think the casinos would win this much if the army of card counters out there could really win?

The hard truth is that traditional card counting is dead as a practical way of beating the casinos. That is why I am so excited about the new breakthrough Advantage Blackjack Strategy! It is like nothing you have ever seen before at the blackjack tables!

You don't need much money to use this system. A bankroll of \$200 to \$300 will get you started.

You don't need any special skills or an extraordinary memory. This strategy is so simple that anyone can learn it and win at blackjack!

I recently taught my barber how to win at blackjack. Sam is truly one of a kind. While everyone else was becoming a coiffure specialist or whatever they call people who cut men's hair these days, Sam remained a barber right down to the red and white striped barber pole in front of his shop.

The last time I went in for a trim, Sam started talking about money. He lost a lot of money in the stock market last year listening to his broker. Seems that his high technology portfolio took a major bath. Now he is worrying about his retirement. He told me he was trying to learn to win at blackjack and had learned the Hi-Lo card counting method. **The trouble was he was losing money at blackjack almost as fast as he had at stocks.**

Sam asked me to help him. He knows what I do for a living, and he asked for my help in learning to win at blackjack. I told him I had something he might find useful, and that afternoon I dropped by a copy of the manual "Advantage Blackjack" for Sam. I told him to feel free to call me if he had any questions, then I forgot about it until the next time that I visited Sam's place about a month later.

Sam didn't say much when I first sat down in the barber chair. We talked about the usual barber shop things until he asked me, "Don't you want to know about my blackjack playing?" Then he proceeded to tell me.

He had easily grasped the concept behind the Advantage Strategy. He told me how grateful he was that I had let him in on this. And then he asked, "Don't you want to know how I am doing?" I said "Sure," but I could tell from his rising excitement that he was going to tell me anyway. He lowered his voice as if we were sharing a conspiracy and said, "I made \$1,257 playing blackjack last week. How about that?"

During my next haircut Sam told me he was making an extra three Gs a month and his retirement was back on schedule. Now I sensed that in helping Sam I had created a problem for myself. He is making so much money at blackjack that I am soon going to be without a barber.

Sam's success is nothing unusual for persons who know how to use this remarkable strategy. It is a highly effective proven way of winning, yet it is remarkably straightforward.

- **You won't have to spend hours looking for a hot table.**
- **It doesn't require that you memorize dozens of complicated charts.**
- **You will not have to do anything illegal or even questionable to win.**
- **And, it won't take much money to get started. Sam started with \$500, but you can start with much less.**

The amount of money you have available is not very important. The win rate is so high for this system that you will rapidly build your bankroll out of winnings.

**"You have changed my life. Four days at Harrah's Casino ship in Joliet Illinois. I picked up \$786.00 profit using \$5 wagers. Fantastic blackjack system! Thank you."
Sean S. – Chicago, Illinois**

Sara is the daughter of a friend of mine of many years. I have literally watched Sara grow up. We were at a party not long ago and she approached me. She told me how hard a time she was having trying to cope with a new baby, a husband working all hours, and constantly being short of money. She had gotten a job at Dominoes Pizza. She figured she would make an extra \$18 to \$20 an hour working a couple of nights a week. However, she called her car insurance agent to see if she was covered using her car to deliver pizzas. He jumped all over her. He told her that her car would not be covered and that she was foolish to even think of doing such a thing. Poor Sara. She had arranged for a baby sitter for two nights a week, but now her new money making scheme was out the window.

Sara shyly asked me if I would teach her about blackjack. A new Indian casino has opened about fifteen minutes from Sara's house, and she was thinking about trying to make some money there. I asked Sara several questions to see if she was sincere about this, then I told her to drop by my office and I would give her a strategy she could use for blackjack.

Sara dropped by the next day so excited she was bubbling. Her baby must have been excited too as he drooled all over my desk. Sara called me every other day for a week. She really didn't have any questions about the method. I think she just needed some moral support. Her husband told her she was foolish to even think about such a thing, which just made her more determined to do it.

Last week I got Sara's latest report. She had played the night before and hit one of the lucky runs that happen once in a while. Sara was so excited that she almost shouted into the phone. **“Martin, I won over \$5,000 last night. I can't believe I am so lucky. And I owe it all to you!” The hug I got later was a great reward for giving Sara some help to realize her dream.**

How about you? Isn't it time you started realizing your dream?

I am inviting you to join my small inner circle of friends and associates who are consistently winning millions of dollars a year off blackjack tables.

Everything that you need to know to start your own winning streak is covered in “Advantage Blackjack.”

There is absolutely no risk to you to check this out. I am offering you a 100% Guarantee that is very simple to understand. Either you win at least \$1,000 using this method or just return the manual for a complete refund!

“Just a quick message. Thank you. THANK YOU. My wife and I have been using your blackjack betting system for just under two years, in Las Vegas and the Caribbean, with spectacular, almost scary results. Vacations are more than covered to say the least.”

Dr. A. S. – San Diego, California

But there’s even more. If you order right now, I will include four Big Bonus winning strategies for Slot Machines, Video Poker, Roulette and Craps.

There is only one catch. You must hurry. This is a special offer only available on our web site. We will only offer these manuals until we run out. Please click below for complete information.

"Las Vegas for Free"

Are your bags packed? Are you ready for the most exciting vacation of your life? You can travel to Las Vegas, Atlantic City or any of dozens of other destinations for free. You can relax and play in the most lavish vacation spots on earth and not spend a cent!

I will reveal how you can be “comped” by a casino and get everything for free. This includes a free room, food in the best restaurants, beverages of your choice and even free airfare. Does this sound like a good way to plan your next vacation? What if I told you there’s even more?

Because of high competition, more and more casinos are offering completely paid for, absolutely FREE VACATIONS. And, when you use my system, you will not only get a free vacation, you will actually win a lot of money off the casinos!

I have developed what many people call the “ultimate tax shelter.” With my “Get Paid to Gamble” strategy you will not only have casinos sending you more vacation offers than you can use, you will end up winning money on every trip. There is not a more exciting and pleasurable way to combine play and money making than this one!

A friend of mine, Bob G., knew how frequently I travel to Las Vegas. One evening while relaxing at a barbecue by my pool, I shared the secrets of getting everything you want out of the casinos. At first Bob couldn't believe that I travel whenever I want and not only do I do it for free, I actually make money while living the good life. I shared with Bob the same information I am going to share with you. Once I show you how to work the casino "comp" system, you will be showered with more comps than you can use.

Bob is now using my system, and I hardly ever see him since he is traveling all of the time. He is receiving more invitations for trips than he can use. He called me the other day and told me he is even receiving birthday presents from the casinos.

Does this seem a little crazy to you? This is one of the best-kept secrets in the world. While every casino wants the world to believe that they are making more money than ever, the truth is the competition is getting tough.

New casinos are going up every day. There are only two states which don't permit some form of gambling – Hawaii and Utah. Every casino is having to fight harder to get and keep its customers.

In order to fight the competition, many casinos are offering more and more "comps" or freebies to their customers. And these comps are not just junk like tacky gifts and T-shirts.

We're talking big time comps these days. Many casinos will give you a completely paid for vacation when you know exactly what to do.

I am going to show you exactly how to get in on this bonanza. No matter how little you wager, there are casinos that desperately want your business. And, when you know how to work the system, they are willing to pay you to become their customer! Are you ready to start getting your share of these incredible benefits? Just click below –

www.casinogamblersbookcase.com/gambfree3.htm

If you have ever wanted to know how to travel for free to the most lavish destinations in the world as often as you want, and have the casinos pay you to do it, then you must have this information!

But, there's even more. I have put together a fantastic manual of the best winning systems for winning at craps, slot machines, video poker, roulette and even blackjack. I will send all of this information to you ABSOLUTELY FREE when you order the Special "Gamble for Free" Manual.

Once you have this complete "winners package" the possibilities are almost endless.

You can travel every month like my friend Bob G.

You can use the special winning systems as a new source of income and turn your travel into an extremely lucrative second income.

“I have been using your betting strategies and have been more successful than I ever thought possible. I have made thousands in the past two months. Thank you, thank you, thank you.”

Charles R.

Whiting, New Jersey

Beverly J. learned my system for beating the casinos and having them pay for everything. She has since quit her job and now spends about a week a month traveling and playing blackjack. The rest of the time she spends gardening, hiking and playing with her children. Beverly told me that using this special strategy has changed her life.

Another one of my students, Tyler S. now plays blackjack and craps for a living. He called me from the Atlantis casino in the Bahamas last week. He told me that while their blackjack game stinks, that since he is being comped for everything he is sticking with craps (it is harder for the casinos to muck up that game) and enjoying snorkeling, laying on the beach and meeting fantastic women. He called this “the greatest thing I have ever experienced in my life.”

IRONCLAD GUARANTEE IN WRITING

I unconditionally guarantee this book. You can order “Gamble for Free” risk-free, even if you are simply curious. If you fail to travel to a luxurious casino for free in the next twelve months, just return the book for a prompt and courteous refund.

.....

I am inviting you to join my small circle of clients who are traveling for free and winning millions off of the casinos. There is absolutely no risk to you to check this out. With our Iron clad Guarantee you are completely protected. Just click here for complete information: www.casinogamblersbookcase.com/gambfree3.htm

This is truly the best chance you will have to vacation in Las Vegas for free and develop a new life style as a bona fide casino winner and world traveler.

Bon voyage,

Martin J. Silverthorne

Here's Your Key to Winning!

Friends often ask me what the key to winning in a casino is? Most of them don't believe that you can really beat the casinos. They believe that the games are just unbeatable because of the house edge or that the games are rigged.

Or that the casinos only let a few people win sometimes. Or that winning is a rare fluke that only occurs once in a while.

I agree that most people don't win very often, but it's not for the reasons they think.

It's not because of the casino's edge. Their edge is so low in some games, like craps, that it really makes little difference in the few minutes it takes the average person to lose.

It's not because the games are unbeatable. Nearly everyone gets ahead at some time and later, after they have lost, they think, "If only I had quit when I was ahead."

It's not because the bets are unfair, the dealers cheat, or any of the common reasons most people give when they lose.

The key to winning is using a scientific system which requires no guesswork and which has been rigorously tested and proven to work in real casinos.

For some time I have been using an outstanding system to win at craps.

- **It is a consistent winning strategy. I usually win between \$500 and \$1,000 a day using the system.**
- **It wins on a regular, predictable basis. I can count on winning more than 85% of my sessions at the tables.**
- **It is based on verifiable scientific principles. While it is not difficult to learn, it uses a proven series of steps which literally overcomes the casino's edge for the short time period needed to win a game!**
- **It wins against real craps tables in real casinos, not just against computer simulated games. Most "systems" are just fabrications of some author trying to make a fast buck. They have not been used in the real world and they simply don't work. This strategy works. I know. I use it myself!**
- **And it is easy to use. You don't have to memorize a bunch of charts like most blackjack systems, or write down wheel spins as many roulette systems require.**

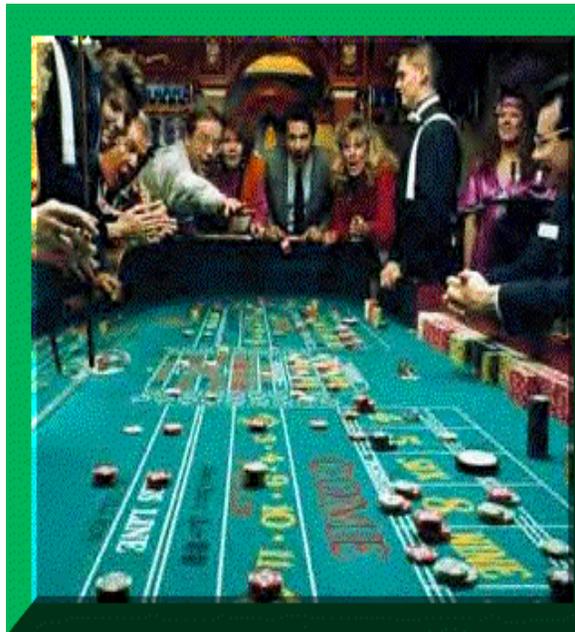

This is what I call my "bread and butter" system. It is so consistent and reliable that I would not hesitate to recommend it to my best friends.

This system is called "Super Craps," and the name is very accurate. It is really a super way of winning!

Let me tell you about a friend of mine. Jim retired about six months ago. For the first couple of months he sat around the house, generally “getting in the way,” as his wife Margaret says. Jim’s problem, like so many formerly active men, was he just didn’t know what to do with his time. He tried golfing three times a week and finally confessed to me that he can’t stand it.

He went fishing a couple of times, but as Jim put it “Man can not live by trout alone.” What he really likes to do is visit the local Indian casino about fifteen minutes from his house. There’s only one problem with this. He keeps losing money!

About a month ago Jim and Margaret were over with some other guests. Jim and I were standing by the pool talking, and Jim asked me about playing craps regularly. He knows that I play a lot, and I guess he felt comfortable asking me about it since I have a full sized craps table in my gaming room.

I invited Jim to come over and practice at my table. I think this was what Jim wanted to hear. Jim has the same problem a lot of people have. He was afraid of the game. This many sound silly. Every though Jim is retired, he is still strong as a bull, lively as they come, with eyes brimming with intelligence. But Jim was afraid to admit that the game intimidated him.

When Jim came a couple of nights later. I explained the basic bets and showed him a simple winning strategy. We bought in for \$500 each in our practice session. In a couple of hours Jim had made over \$500. Of course, this was just for fun. But Jim was intrigued and asked me, “I know I made money tonight, but do you think I could make money playing for real?”

I laughed and told him **“Why, not. We are playing at a real craps table, using casino dice, and the exact same rules they use in the casino up the road. Of course you can win.”**

Jim asked me to go with him to the nearest casino. I suggested we have one more practice session because there were some things he needed to know that I hadn't had time to teach him.

Jim came back in a couple of days. We finished the practice session and Jim wanted to try it out right then. We drove out to the casino and played for about two hours. Jim won over \$300. He could have won more, but it took a little while to iron out the kinks in his play.

Jim now golfs only once a week and told me he is liking it better. He only goes fishing once in a while because he mostly likes the drive. But he now plays craps three times a week.

Now you may think that I have created a monster. Sort of like corrupting our youth, or in this case, our senior citizens. Before you judge me too harshly let me bring you up to date on Jim.

Jim is winning between \$700 and \$1,200 a week. He has set up a special bank account for his winnings and has some big plans. Like a special second honeymoon trip for Margaret and him to Hawaii. And that sports car he has always wanted.

Margaret thanked me the last time we were over at their house. She said that Jim almost springs out of bed every day, he is so enthusiastic. She also wanted me to reassure her that Jim wasn't gambling away their retirement. I suggested she talk to Jim about that, but I told her that from what I had seen, Jim was applying a proven winning strategy and doing it correctly.

I would like to share this same strategy with you. Just click on -

<http://www.casinogamblersbookcase.com/SuperCraps/>

I started out this letter by telling you about the key to winning at gambling. The Super Craps system is truly that. It is a proven strategy which consistently chips away at the casino's bankroll hour after hour, game after game and will produce phenomenal winnings for you just like it has for me.

If you need a way to make more money consistently in a fun, low hassle way, this is it.

If you need a proven money-maker, this is the one which I know will work for you.

The manual we have put together is so complete that it even shows you how you can multiply your winnings so that you make \$100,000 or even \$300,000 a year playing craps!

I know this sounds hard to believe. But I have arranged for you to try this out at absolutely zero risk. Order the system and look it over. Try in your nearest casino or even in an online casino (it beats the Internet casinos too!).

If you don't win money by following the easy to use instructions, please return it.

If you don't feel comfortable using it, please return it.

If for any reason you are not 100% happy with the information I will send you, please return it for a prompt and courteous refund.

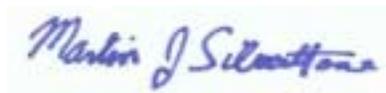

But there's more. You will find that becoming a consistent winner creates its own set of problems. Like how to hide some of your winnings from the casinos where you play. Or what to do about paying taxes on your winnings. Or how to set up a substantial casino credit line. Or how to get the casinos to pay for everything including your room, your food, your beverages, even your airfare.

That's why, if you order right now, I will send you the information filled book – “How to Survive and Prosper as a Professional Gambler.” This book has been called the “Gambler's Companion,” and it is my gift to you for trying out “Super Craps.” It sells for \$39.95, but it is my gift to you if you act now.

Please hurry. This offer will not be held open more than a few days. Please click below for complete information.
